### 3 – Voting order and methods

The decision is taken by absolute majority, i.e., by half plus one of the votes of the members of the selection panel attending the meeting. This order must be duly substantiated on the assessment criteria indicated in number 2, with the applicants being classified on a scale of whole numbers from 0 to 100 for each assessment indicator. In the various voting rounds, each member of the selection panel shall respect the ordering that she/he presented, with abstentions not being permitted. The first round of voting aims to determine the applicant positioned in first place. If an applicant obtains more than half the votes of the members of the selection panel attending the meeting, she/he shall be positioned in first place immediately. If this does not occur, voting shall be repeated after removal of the applicant who received the least votes in the first round. If there is a tie between two or more applicants in the least voted position, then a vote shall be taken to break this tie, and if the tie persists, the chairperson of the selection panel shall decide on the applicant to be removed. The process shall be repeated until an applicant obtains absolute majority to be classified in first place. This same process is repeated to obtain the applicant classified in second place, and so on successively until an ordered list of all the applicants is obtained. Whenever a tie occurs in the voting on any applicants, the chairperson of the selection panel has the casting vote, pursuant to Article 12 of the Regulation for Recruitment, Selection and Hiring of Teaching Staff of ISCTE.
